**Subject:** RE: Upcoming Hood Certifications  
**Attachments:** HoodInventory\_dec2007.xls

Attached is the current fume hood/biosafety cabinet inventory. Please check for accuracy and let me know if there are any changes.

Thank you,

Howard

**Subject:** Upcoming Hood Certifications  
**Importance:** High

Hi Howard,

Sorry I am late getting back to you on this. You need to contact the DPH staff I copied on this e-mail for the hood certifications. I listed the people that have hoods in restricted areas below. In the past, Lana sent out the hood inventory list for staff to review just in case a hood was discarded or a new hood was installed.

Scott Hennigan, 4W, 7E & W and 8W

Jill Clemmer 3E

Chuck Salemi 3W

Cheryl Gauthier 4E

Please give me a call if you have any questions....Dina

Dina, \_

B&V Testing will be performing the semi-annual chemical fume hood and biosafety cabinet certifications during the week of 12/17 – 12/21. Can you please alert the affected groups that this activity will be occurring?

Thank you very much.

Howard
